Morrison Hannah™ Chair

The contemporary revival of the Morrison Hannah Chair makes an important chapter in design history accessible once more. Designed by Bruce Hannah and Andrew Morrison in 1973, Knoll introduced the chair as, “Easy to manufacture, easy to reupholster, easy to live with, and easy to love”—a friendly approach to light task seating that’s welcome in today’s hybrid work environments. Its intuitive adjustments and holistic ergonomics deliver comfort without fuss, and an updated palette of color and material options engages a contemporary vision.
